

# **Installation Guide**

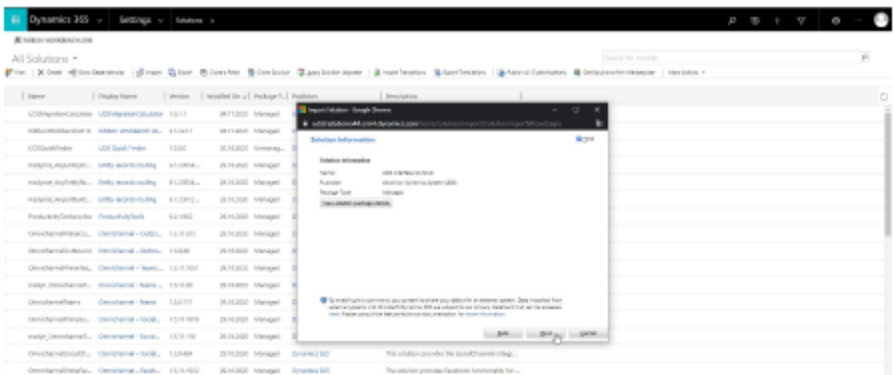

## **UDS INTERFACE SWITCHER**

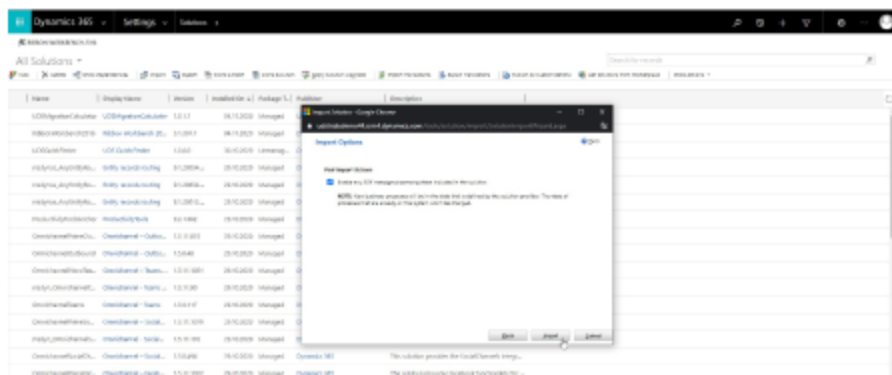

### 3. On the **Selectet Solution Package** pop-up window, select **uds-interface-switcher.zip** file and click **Next** button.

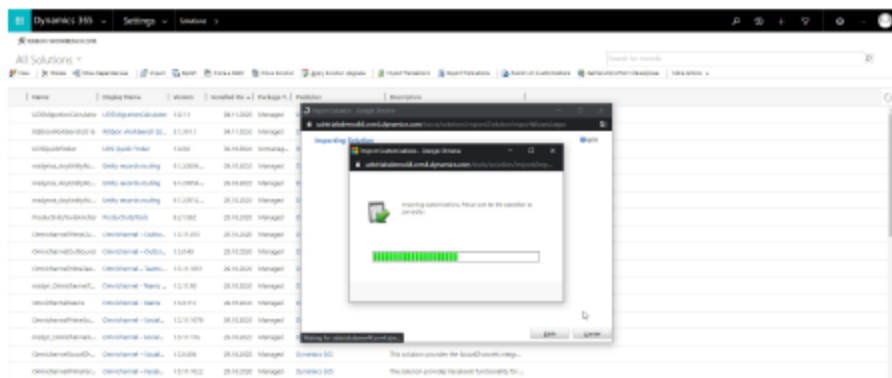

### 4. On the **Solution Information** pop-up, click **Next**.

## 5. Mark **Enable any SDK message processing steps** are included in the **solution checkbox** and click on **Import** button.

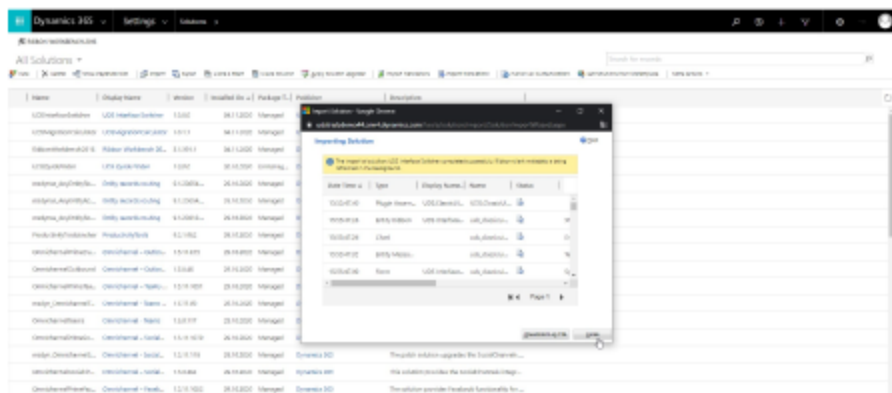

## 6. The installation progress bar will appear.

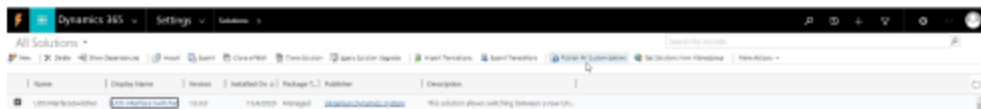

7. You will see the following notification: **The import of solution: UDS Interface Switcher completed successfully. Ribbon client metadata is being refreshed in the background.**

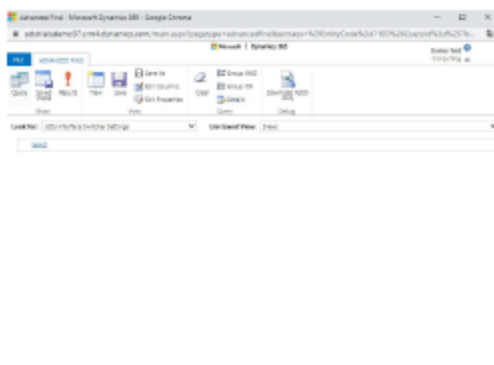

Click **Close**.

8. The add-on will appear on the Solution page.  
Click **Publish All Customization** button.

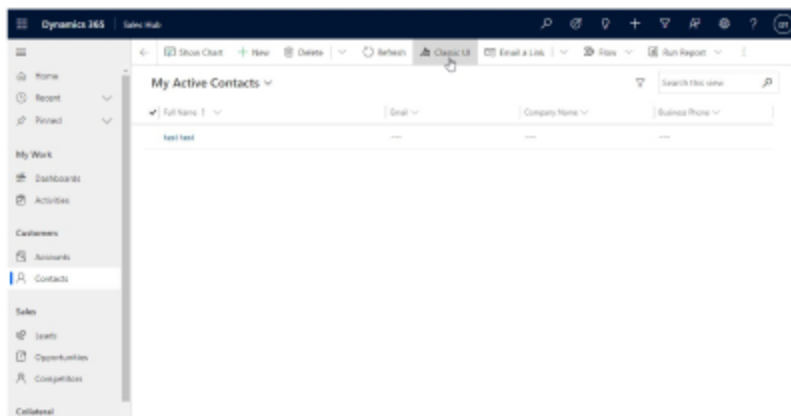

9. In advanced Search set Look for field to **UDS Interface Switcher Setting** and click **Results**.

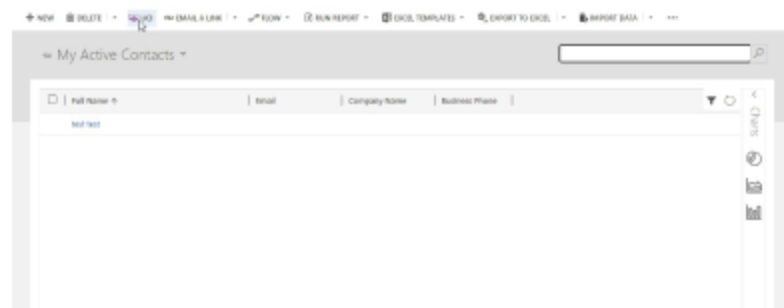

## 12. Classic UI button will appear in your system on UCI (new) Interface.

## 13. Button **UCI** will appear on Legacy (old) interface in the menu. (If you cannot find **UCI** button in the menu, choose **Command** and click **UCI**.)

### Notes:

It is possible to have multiple records of UDS Interface Switcher Setting but only the last one saved will be valid. This version of solution is for Online version of CRM, not On-Premise.

Stay tuned, On-Premise version will come soon.

## Uninstall UDS Interface Switcher

1. To uninstall UDS Interface Switcher, mark check **UDS Interface Switcher** on the Solutions page and click **Delete** in the upper menu. Click **OK** on the pop-up window.

The screenshot shows the Dynamics 365 interface with the 'Solutions' tab selected. A table lists various solutions, with 'UDS Interface Switcher' checked. A modal dialog titled 'Uninstall Solution' is displayed in the foreground, asking for confirmation to delete the solution. The dialog includes a warning that the action is irreversible and may take several minutes. The 'OK' button is highlighted.
