

Add-on Installation

Hints for Safari Users

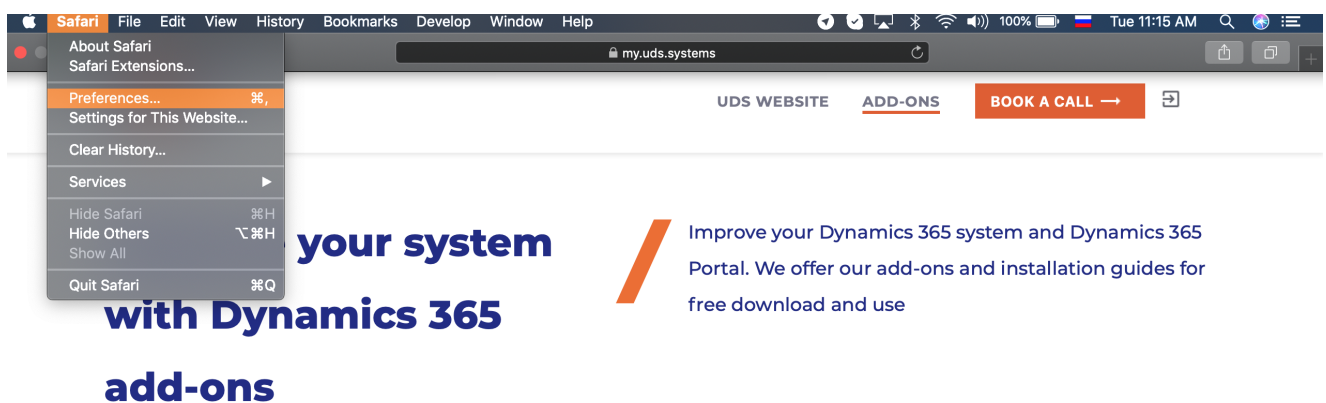

Installation

You can download to your Dynamics 365 only Zip archives with add-ons. Usually, all archives get automatically decompressed after downloading by default.

Before proceeding with add-on download, check and change your Safari preferences if required. First, hover on the top menu bar and click on **Safari** from the browser.

Choose **Preferences...** (You can also open preferences with hotkeys ex.: Command + ,).

UDS Data Migration Tool

Obtain effortless performance of data migration from one system to another.

UDS Interface Switcher

Add custom Classic UI button to Dynamics 365 for a quick switch between old and new interfaces.

UDS Migration Calculator

Obtain fast calculation of the cost required for migration to the cloud.

At the very bottom of the section **General**, you will see the following notification:

Open “safe” files after downloading “Safe” files include movies, pictures, sounds, PDF and text documents, and archives.

interfaces.

cost required for migration to
the cloud.

To enable further downloading of Zip archives without automatic decompression, please **uncheck**.

Now you can safely download add-on archives and install them right to your Dynamics 365.
